Engineering 195
Spring 2005
Women in Engineering Seminar

Quarter:	Spring 2005	**Graded:**	S/U (Satisfactory/Unsatisfactory)
Time:	TBA	**Credits:**	01 (Free Elective)
Location:	TBA	**Call Number:**	TBA

This is an opportunity to study the role of Women in Engineering and to talk with practicing professionals.

The course includes: presentations by guest speakers who share their knowledge and experience about the areas and career options available to those graduating with an engineering degree; class discussions; and activities for building professional awareness.

The class meets once a week. The course will include one plant trip to a nearby facility.

Grading is based on attendance, participation and submission of evaluations of each lecture.
